Some locals have instructed dele gates to vote for a strike if concessions are not granted. President Mitchell de clines to make any statement as to what ction the convention will take.

### Puts Miners in Ugly Mood.

A union official said this morning: "We had hoped that there would be no disorder or riots until at least after the convention, though, of course, we the convention, though, of course, we do not want them at any time. "I have been in communication with Mt. Carmel and have been informed that the trouble in the first instance was caused by a gang of hoodlums and town loafers and not by mine workers. The companies will rejoice at the rioting for they quickly seek to show that the local authorities cannot cope with the situation, with the hopes of having the governor call out the National Guard."

Subject of vital concern to the cotton industry will be thrashed over.

James R. McCall, of the New England Cotton Manufacturers' Association, was selected as permanent chairman of the conference, he having called the conference with D. I. Hickman, of the American Cotton Manufacturers' Association, as chairman, to report on permanent organization.

Mr. Moffett early yesterday morning repaired to the city hall and procured a marriage license for himself and Miss Webb. The license authorized the Rev. Enoch Thompson, of the Pro-Cathedral, to perform the ceremony, and the hour appointed was 6 p. m.

After waiting for more than an hour for his bride to meet him at the altar, Mr. Moffett, distressed beyond expression, left the church. His bride had failed to keep the appointment and he knew not why. Having no immediate use for the license, he retraced his steps to the city hall and returned it to Mr. Williams, asking that it be canceled. His only explanation for the return of the license was:

"It takes a woman to change her "It takes a woman to change her mind."
